Profile

Full-stack developer focused on building responsive and user-centric web applications. Internship experience at SNTI, Tata Steel delivering GenAI product interfaces using JavaScript, Python, and modern frontend tools. Currently strengthening React and backend development skills.

Technical Skills

- **Languages:** JavaScript, Python
- **Frontend:** HTML5, CSS3, Tailwind CSS, React, Next.js
- **Concepts:** REST APIs, Responsive Design, DOM Manipulation
- **Tools:** Git, GitHub, Figma

Experience

GenAI Intern, SNTI – Tata Steel

jan 2026 – may 2026

- Developed a chat-based frontend interface for a GenAI medical report assistant using HTML, CSS, and JavaScript
- Integrated Python backend APIs to process user prompts and generate structured outputs
- Improved UI responsiveness, usability, and conversation flow through iterative testing
- Collaborated with team members on debugging, feature delivery, and deployment readiness

Projects

Medical Assistant

- Built a responsive chat-style interface for a GenAI-powered healthcare assistant
- Designed user flows for report generation and query handling
- Integrated backend APIs for dynamic responses

Weather Application

- Developed a weather application using JavaScript and external APIs for real-time forecasts
- Implemented dynamic UI rendering based on location and user input
- Managed asynchronous requests and error states

Employee Management System

- Developed an employee management system using React and JavaScript for managing employee records
- Implemented CRUD operations including adding, updating, viewing, and deleting employee data
- Built reusable components and responsive user interfaces to improve maintainability and user experience

Education

Bachelor of Computer Applications

Sister Nivedita University, Kolkata

2022 – 2025

- Percentage: 64%

12th Grade

Jusco School South Park, Jamshedpur

- Percentage: 62%
